

Movie Night

The New Life United Methodist Church in New Fairfield, CT heard about Comfort Kits and wanted to dive into helping the ministry. Two kids from the Children's church program presented the idea of supporting Comfort Kits to the rest of their friends and they all loved it. The kids decided to do a movie night for the community. They showed a movie in their sanctuary for free, and sold tickets for snacks like chips,

chips and cookies and drinks. They even had their very own popcorn machine! They also set up a space for games which also cost a few tickets. After all the snacks and fun, the kids and their families went in to enjoy the movie. The night was a success! They raised enough money to purchase 20 Comfort Kits. Later that month, the kids were able to go to Danbury Hospital and distribute the Kits personally to 5 children and their families. Being able to provide comfort to those children was very beneficial to all. The project was such a success that the movie nights are now an ongoing project. The church has 6-8 movie nights a year. New Life raised \$650 for us in the last year.
