

## Tin Cans and Coins

Every year the Peace Covenant Presbyterian Church in Florida chooses a different organization to do a loose change fundraiser. When the youth Sunday school leader was looking for a fundraiser to do he came across Comfort Kits for Kids. He asked his group if they would like to collect change for Comfort Kits, they were ecstatic and ready to get started. The junior high and high school volunteers made posters and gave presentations on the Comfort Kit. The younger kids used tin cans to collect

loose change from the congregation every Sunday for 4 weeks. The kids enthusiastically raised enough money for a donation of 40 Comfort Kits!
